Mrs. Gregoria Cruz Arnaldo
Insurance Commissioner
1071 United Nations Avenue
Ermita, Manila

Dear Madam Commissioner:

Re : CHILD APPLICATION FORM
=====

This is to acknowledge and thank you for your letter of April 27 enclosing one specimen copy of our adult Application Form No. 906-0020 which has been duly approved.

We are now in the process of revising our Child Application form which will be patterned after our above adult Application Form, and would like to seek your advice on the following.

Attached is a copy of our present form. You will find towards the right of the block for Question No. 9 a clause to the effect that:

"In the event of the death of the child before his fourteenth birthday, the amount payable will be only the premiums paid with 5% compound interest, but will not exceed the face amount."

Our Company now prefers that the return of premium wording be not specific regarding age, but state that the age will be as specified in an endorsement included in the policy. If necessary, the wordings will ensure that the age will never exceed 14. This will then give the Company a leeway to reduce the period of the return of the premium clause to a shorter duration if the Company's experience gives favorable results.

lots ask them the 'provision'

Please let us know if the above arrangement is acceptable.
